

Growing Plants in Wet Soil

Areas with constant wet soils can be challenging to grow the correct plants. Planting the wrong plant can ultimately kill the plant, forcing you to start over. If you have areas that are extremely wet, flood often, or are in a natural run-off area, these plants may be some you should consider!

Shrubs, Trees and Perennials

- Chokeberry
- Pussy Willow
- Dogwood
- Ligularia
- Joe Pye Weed
- Perennial Lobelia
- Viburnum
- Fern
- Turtlehead
- Spiderwort
- Iris
- River Birch
- Weeping Willow
- Red Maple (*Acer rubrum*)

Annuals

- Impatiens
- Fiber Optic Grass
- Nasturtium
- Pansies (may still have issues so watch)
- Forget-me-nots
